

The image features two identical wooden pendant lamps with a conical shape, suspended by black cords. They are positioned in a room with a dark wood bookshelf filled with books on the left and a window with a wooden frame on the right. The background is a plain white wall. The text '30 DEGREES' is overlaid in large white letters across the lamps, and 'DESIGN BY JOHAN VAN HENGEL' is written below it in smaller white letters. The brand name 'HAY' is located at the bottom center in white. A small date '24/09/19' is in the bottom right corner.

30 DEGREES

DESIGN BY JOHAN VAN HENGEL

HAY

30 DEGREES

30 Degrees is a lightweight shade made of laminated oak veneer. The seamless surface is achieved by aligning the ends of semicircular veneer sheets at a 30 Degrees angle, so the inside cone and internal angle is always 30 Degrees. The layering of the conical veneer creates a solid shade that is opaque and characterized by its harmonious woodgrain pattern. Rich in tactility, the series express a natural elegant aesthetic. All shades are sealed with a matt lacquer and supplied with a moulded locator fitting, which levels and supports the shade when suspended. 30 Degrees comes with Cord Set.
