## CPH 30 EXTENDABLE

Part of the Copenhagen range designed by Ronan and Erwan Bouroullec, the CPH 30 Extendable shares the same characteristic angled legs and strong identity that are consistent with the rest of the collection, yet its extendable design sets it apart. Supplementary extension leaves can easily be inserted into the table's central sliding mechanism, allowing the table to be extended to the required length. The table's flexible length makes it suitable for offices and public contexts, as well as workspace or dining solutions in home environments. CPH30 Extendable is available in a number of sizes with an oak frame in different finishes, and the tabletop comes in a variety of wood, laminate or linoleum options. The extension leaves can be purchased separately.

**MATERIALS**

**TABLETOP** / 24 mm plywood tabletop with laminate, linoleum or veneer in different finishes.  
 Bevel edge. Tabletop edge matches frame finish. 1 mm laminate / 2 mm linoleum.  
 Please note tabletop crossbar matches table frame.

**FRAME** / Slanted wooden legs featuring non-visible integrated screw-in adjustable feet that can be extended up to 12 mm to make the table level on uneven surfaces.

**LEAF** / 24 mm plywood beech with laminate or linoleum.  
 Crossbar in 18 mm solid oak. Table leaves are available in 2 sizes.

**SUPPORT LEG** / Solid black painted beech. Inclusive adjustable glider.
