# A Symphony of Metal and Granite

A granite base with a thunder grey mineral mélange constitutes the magnetic starting point for the Grant series. In a symphony of contrasts, this elegant igneous stone is paired with polished metals to compose a refined and balanced design. Grant arises from the aesthetic interplay between high shine and dusty granular depth.

The collection's ensemble of lamps for wall mounting, ceiling, floor and table have an inherent classic quality and a versatile appeal. Lampshades with a dense rounded silhouette, inspired by Copenhagen's iconic street lighting, meet slender arms in soft and airy compositions.

There is a sense of familiarity in the simple shapes and poised stature, while the smoothness of unbroken curves and unusual mix of materials lend the design a modern lucidity and immediate freshness. Grant is the quintessential timeless lighting series, which looks right at home in intimate spaces as well as grand majestic halls.

All lamps in the Grant series have an LED light source with dispersion lens that emits a soft and pleasant light. The floor lamp, table lamp and wall lamps come with dimmer switch and the pendants are dimmer compatible. Discrete and well-executed wire outlets and deluxe fabric cords add the finishing touch to this exclusive range.
