A hanging lamp with attitude

Bau is a sculptural hanging lamp designed by Vibeke Fonnesberg Schmidt, who has combined composition and geometric shapes in a unique and creative design. Bau is a decorative lamp that suits both minimalistic interiors and more daring houses. The Bau lamp is available in two different versions. Bau is a hanging lamp with attitude.

The design is based on interlocking geometric circles, sticking out in all directions. Bau has an immediate pattern that is broken up by the discs' sizes and off-centre linkages, making the lamp living and organic in its expression.

Bau Lamp small
