

Forest series

Designed by Pavel Vetrov, Ukraine

The Forest series was brought to life with inspiration from the untouched forest, as well as the feeling of calmness and being alone that we seek in nature. A series of side and coffee tables all sharing a strong connection to the forest, which can be seen in the beautiful sleek legs which, when you put several tables together, are reminiscent of the forest with its beautiful tree trunks and tops. The design language is clean and simple, with a level of craftsmanship that is particularly evident in the tabletop and gives the design a distinctive, organic and refined look.

Meet the designer

The Ukrainian designer, Pavel Vetrov, is particularly inspired by music and the world around him. Using a simple approach to the design process, he seeks to eliminate all unnecessary noise from his products in order to create something that is eye-catchingly simple. And for him, tactile, authentic materials and the intended function are the epitome of good design.
