INTRODUCING THE LINEAR WOOD SERIES BY THOMAS BENTZEN FOR MUUTO

The Linear Wood Series by Danish designer Thomas Bentzen exemplifies the ideas of functionality and longevity, joined by an understated detailing for a refined expression.

With its clean lines and timeless yet contemporary sentiments, the Linear Wood Series brings new perspectives to wooden furniture through a modern design language with references to classic design.

Designed in traditional Scandinavian materials with oak veneer at the frame and legs along with plywood on its top surface, the Linear Wood Series is characterized by a light and elegant sentiment while bringing functionality and aesthetic appeal to any dining setting, workplace or hospitality area.

THOMAS BENTZEN ON THE DESIGN

“The Linear Wood Series was designed from the idea of bringing the warm and friendly sentiment of wood into a timeless, understated shape with its form language inspired by the notion of meetings—the meetings of lines and shapes. The design is defined by its straight lines for a contemporary yet honest aesthetic through the details of its thinly elegant overhang and half-circular intersecting legs. It is through these subtle elements that the Linear Wood Series translates the values of elegance, longevity and functionality into modern Scandinavian design.”

ABOUT THOMAS BENTZEN

Thomas Bentzen founded his own studio in 2010 with his design receiving international recognition at fairs and exhibitions across the world. Bentzen is firmly rooted in the Danish design tradition, emphasizing material knowledge, craftsmanship and rational industrial manufacturing processes.
