

BONBON SHADE

DESIGN BY ANA KRAŠ

HAY

– BONBON SHADE –

BONBON SHADE

Inspired by her drawings, Ana Kraš' woven Bonbon Shades are produced using an original technique to create textured, one-of-a-kind pieces. Every one is hand woven with cotton-wool yarn around a powder-coated steel frame, resulting in individual lampshades that vary slightly in their appearance and surface aesthetic. Sold with a choice between two different cord sets, Bonbon is available either as a table/floor lamp or as a pendant, but it stands on its own as a powerful decorative object even when the bulb is not switched on.

ANA KRÂS

Born in Belgrade, Serbia, in 1984, Ana Kraš studied furniture design and interior architecture at the University of Applied Arts in Belgrade. In 2013, she moved to New York, where she has continued pursuing various projects in the fields of object design, art, photography, and fashion. Her work has been exhibited in numerous solo and group exhibitions around the world, and featured in many international publications. For HAY, Ana has designed the Bonbon Shade.

PRODUCTION HIGHLIGHTS

In her earliest versions of Bonbon, designer Ana Kraš tapped into the rag trade by utilising leftover yarn from the fashion industry, and Bonbon continues to use stock from that same supplier.

The colours featured are those already in production by the manufacturer: this roots Bonbon in a more efficient and less wasteful supply chain.

DESIGN HIGHLIGHTS

Bonbon is a unique design that combines the craftsmanship and originality of a handmade artwork with the sleek quality of a mass-produced object. Featuring hand-threaded shades in a variety of colours and designs, each Bonbon is in fact handmade, and stands on its own as a powerful decorative object even when the light is turned off.

Bonbon 380, Ice Cream

Bonbon 320, Yellow Melange

Bonbon 380 - Grey Melange

- BONBON SHADE -

MATERIALS
