

Beaver series

Designed by Says Who, Denmark

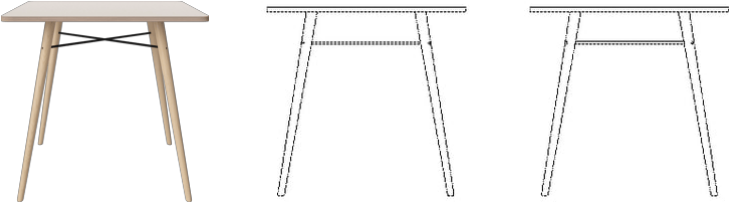

Beaver is a series of modern dining chairs, bar stools and tables aimed at different functions, gatherings and formats. All designs brim with character and beautiful detail that testify to the quality craftsmanship. The iconic legs are designed at a slanting angle and feature a steel cross that ensures Beaver's legs remain firmly planted on the ground – for now and forever.

Meet the designer

We are Nikolaj and Kasper. We are Says Who Design. We like to tell stories through our products. Stories that add character and relevance to the user experience. We love simple, clever yet masculine design. Rawness expressed through refined details. We always strive to add personality to the product. An edge or feature that defines its use, style or statement. Good design is useful, characteristic and tells a story. It leaves a lasting impression that enriches our lives in ways we never thought of before. When design is at its best, it enriches our everyday lives and experiences.
